

It's not a mirage. It's HDCP compliance.

Quantum Data provides innovative solutions for resolving interoperability problems with emerging video technologies. In keeping with our tradition of innovation, we have introduced the first HDCP compliance test solution. Imagine...running HDCP compliance tests for HDMI sources, sinks and repeaters with the press of a few buttons. It's not a mirage. It's real, it's here and it's only from Quantum Data.
